Details of software procured for providing the assistance

Braille Blaster

Braille Blaster is Braille transcription program developed by the American printing house for the blind to help transcribers provide blind students with Braille textbooks on the first day of the class. Designed primarily for editing textbooks. That meet the specifications published by the Braille authority of North America, The purpose of the Braille Blaster is to help the Braille producers

Ensure that every student as their Braille textbooks on the first day of class. Braille Blaster relies on Libelous, well-known open source Braille translators, for translating text and mathematics to Braille. It isa open source software.
